United States of America
2012 Presidential Candidate
Scott Allen Meek Stephens
I STAND FOR "WE THE PEOPLE"

VOTE FOR ME
OR DON'T VOTE AT ALL

Scott Allen Meek Stephens Mission Statement and Campaign is to: BRING THE HEMP INDUSTRY BACK!

Not only would Industrial Hemp create Millions of Jobs, it would decrease our National Debt and increase our Global Economy.

What is the United States number one export? ***JOBS!***
We export more jobs every year and this is where our money is going!
We need a renewable resource that can be grown and exported!

I am just fed up with the way our Government and Global Bankers are ruining our National and International Economy.
The truth is that the economy is in much worse shape than most people think and the poor in America are rapidly getting poorer.

I am not going to lie or hide anything from the American public like all the other wanna-be politicians we have had in the past, I know I have a few skeletons in my closet but my intentions are for the good of ALL Mankind not just AMERICANS.

Ask yourself? Why isn't any other candidate in the 2012 elections using HEMP as a major part of their platform?

Answer: Not everyone can drill for oil in their backyards nor can most people build a laboratory in their kitchens for medicine.
The truth, energy and medicine are free and natural. The technology has been here for thousands of years but with the master control of the Federal and World Governments over holding Patents and Trademarks, the people of the world are denied access to the cures and comforts of a healthy and sustainable lifestyle. It's all about taking more money from the American people these officials say they are trying to help. We are all living a big lie by perpetuating the Oil and Pharmaceutical Corporations by making the world population pay to survive.

If the Hemp Industry was never stopped, the Entire Globe would be Heaven on Earth!

If one Candidate mentioned full scale Industrial Hemp, they wouldn't get the Corporate Donations and Millions of Dollars from the very people who don't want Industrial Hemp in America.

“Hence the stranglehold of the slave population”

The stipulations with the Federal Election Commission or the "FEC" all has to do with raising money from the people and how much each candidate can get from each person or business. What a joke! America is broke and the politicians want more money from you!

I don't want your money, **I want your VOTE!** I am willing to work as the President of the United States of America for food and shelter.
That should be equal to $27,150.00 and a clean room in the Whitehouse. Until I see the American and the World Economy change for the better and the Global Unemployment rate drop to less than 3%, I will live like the rest.

"I Scott Allen Meek Stephens do solemnly swear that I will faithfully execute the Office of President of the United States and will **DIE** to preserve, protect and defend the Constitution of the United States."
As a Native American Indian and the current C.E.O. for the Council for Native American Indian Progress, Inc.
A nonprofit public organization incorporated in the state of New York under 501 (c)(3) EI # 23 7360614 since 1972
I realize all the potential this great nation holds and what damages need to be fixed.

If elected, I realize the responsibilities of the President of this great nation are vast and numerous.
My duties would include but not be limited to:
* Try to End all Foreign and Domestic Wars.
* Putting an End to the Arms Race with other Global Leaders.
* Secure Social Security
* Lower Household Taxes
* Implement Pension Caps
* Fix Healthcare for all Americans
* End Child Poverty
* Rebuild the School System
* Rebuild the American Landscape
* Stop Hydro-Fracking in America
* Place Higher Restrictions on Carbon Footprint/ Emissions
* Reallocate Funding from Military and Wars on Drugs to Re-Growing the American Dream of Life, Liberty and the Pursuit of Happiness
* Amend Tax Laws
* Amend the Global Telecommunications battles
* Following the PATH of other Developed Countries in the Industrial Hemp Revolution!

Hemp is currently legal to cultivate in more than 30 countries, including Canada, Russia, England, France and China.

HEMP is the true answer that has been staring us in the face for thousands of years.

Capitalism and Greed is Destroying our Global Economy!

With all the hundreds of billions of dollars we have spent on:

* FOSSIL FUEL DISASTERS and WARS over OIL!
* WAR ON DRUGS!
* BANK BAILOUTS!
* OR WAR PERIOD!

Have the politicians ever considered what we could have spent all that money on?
Such as:
* Our Failed Educational System?
* Our Citizens Health?
* Child Poverty?
* Agriculture?
* Retirement?
* Veterans?
* Public / Town and Community Beautification Efforts?
* Rehabilitation Centers and not Privatized Prisons?
* Industrial Hemp OIL Refineries
* Industrial Hemp FIBER Refineries
* Industrial Hemp PULP Refineries
* Industrial Hemp Clothing Manufacturing Facilities
* Industrial Hemp Textile Manufacturing Facilities
* Industrial Hemp Medication Manufacturing Facilities
* Or how about opening the VAULTS and Implementing FREE AND NATURAL ENERGY FOR THE WORLD. Such as **ZERO POINT ENERGY!**

I truly believe in our American ideals and dreams but I also believe that if we don't change the way we do things now, our children and our children's children will suffer the consequences. Being a father, I understand what it means to think about the future and the future of my child.

The current job market is at an all time low and the economy is taking its toll on us all. The rich keep getting richer and there is no more middle class.

We have more taxes now than we did 40 yrs ago and we have less done!
40 yrs ago when our public officials and states congressmen were running this country things got done.

Apparently our NATION is Bankrupt and we have no way to get out of Debt because we have no Natural Renewable Resources at our disposal.

I myself believe in WE THE PEOPLE can make a change, NOT like the phony promises former leaders have made to the people.

What is it going to take to wake up our unconscious and dying economy?

Why are we Americans so blindsided by our own Government, major corporations and banks?

WE ARE A NATION OF FEAR, IN A WORLD OF GREED AND CORRUPTION!

If we weren't then tell me why our government won't publicize these articles at the USPTO.gov website:
Why are so many people still dying from **Aids** and **Cancer**?

As quoted by a close friend and now deceased Federal Patent and Trademark Attorney Joel K Dranove ESQ: Who died of Breast Cancer 2010. R.I.P.
"If the U.S. Government Holds the Patent, the People of the U.S. are allowed to use it "
Government Link to CURE for AIDS

An illegal Cancer Cure = Genocide! http://youtu.be/dw96bvFR--g

We SHOULD be growing Industrial Hemp in the USA.

For the past 19 years, a team of highly educated individuals has been working on making this change but the government doesn't want the people to win.16 states have legalized marijuana for medical purposes ONLY! Yet not one has been able to implement INDUSTRIAL HEMP!!!

This would help not only the GREEN HOUSE EFFECT but it would increase our National and International Economy

IT IS PROVEN!!!

"Anything made from a Hydrocarbon can be made from a Carbohydrate"

Hemp can grow anywhere and has many Textile, Food, Fiber and Medical uses.
If correctly managed, it could become a Multi-Trillion Dollar a Year Global Industry.

"Make the most you can of the Indian Hemp seed and sow it everywhere."
- George Washington, U.S. President Quote on Hemp

"Hemp is of first necessity to the wealth & protection of the country."
- Thomas Jefferson, U.S. President Quote on Hemp

- In a period of 28 days, pure bio-diesel degrades 85 to 88 percent in water.

- Any CO2 released from burning hemp as fuel matches the CO2 the plant had beneficially taken from the environment while growing, creating what is called a closed carbon cycle that could slow down the effects of global warming.

- Studies have shown that One Acre of Hemp can produce up to 500 gallons of hemp bio-diesel fuel every 120 days.

My eyes have seen more than most people of the world, Our Mother Earth is dying and WE are the Cancer that is Killing Her. Stop following your eyes and ears and start following your Hearts and reject the mass oppression that stands against us with arms and weapons of mass destruction and utilize our world resources for a common goal of sustainable life for all of humanity, our children and their children's children.

Think of the Earth as being like a big automobile traveling through space. Just 200 years ago the Earth was an unspoiled and fruitful planet of unintelligent humans. The earth was a great Classic Rolls Royce Limo. Evolution has taken its toll on the planet and as we grow we take and destroy and as the masses continue to grow, we are now a beat up old school bus with bad pistons and 3 flat tires.

The Earth will cleanse herself and unfortunately I might be around when she does.

Freedom is something we have to fight for. History will repeat itself and the ones with the weapons always win. Don't let your current politicians and world governments tell you what to do and force your hands into a battle.

Make me your Vocal Weapon of choice and VOTE for me in the 2012 Presidential Election
Vote for me, Scott Allen Meek Stephens and
I will make the world a better place for all of our children.

Our forefathers warned us about what is about to happen to our country and WE THE PEOPLE need to stand up and fight against the tyranny that is imminent.

We must change NOW or we are all DOOMED !!!

For over 60 years now our government is by the elite and rich for the elite and rich and ???? everybody else!

I am very serious about the **INDUSTRIAL HEMP REVOLUTION** and turning our country back into the strongest most admired NATION IN THE WORLD

What would you do if everyone had a JOB? Industrial Hemp is the ANSWER

Five U.S. Presidents had never been elected to anything before showing up at the White House.
They are:

1. Zach Taylor
2. Ulysses S. Grant
3. Herby Hoover
4. Ike Eisenhower
5. Billy H. Taft

Make Scott Allen Meek Stephens number #6

We the undersigned residence of the State of Connecticut petition Scott Allen Meek Stephens to be the President of the United States of America in the 2012 Election. Based on his candidacy found at www.RuVisual.com and his ideals towards rebuilding the shattered economy through implementing Industrial Hemp, we feel he is the right Candidate for running our Country.
